

The Evolving Media Pipelines aided by Machine Learning

Usman Shakeel | WW Tech Leader M&E @ AWS

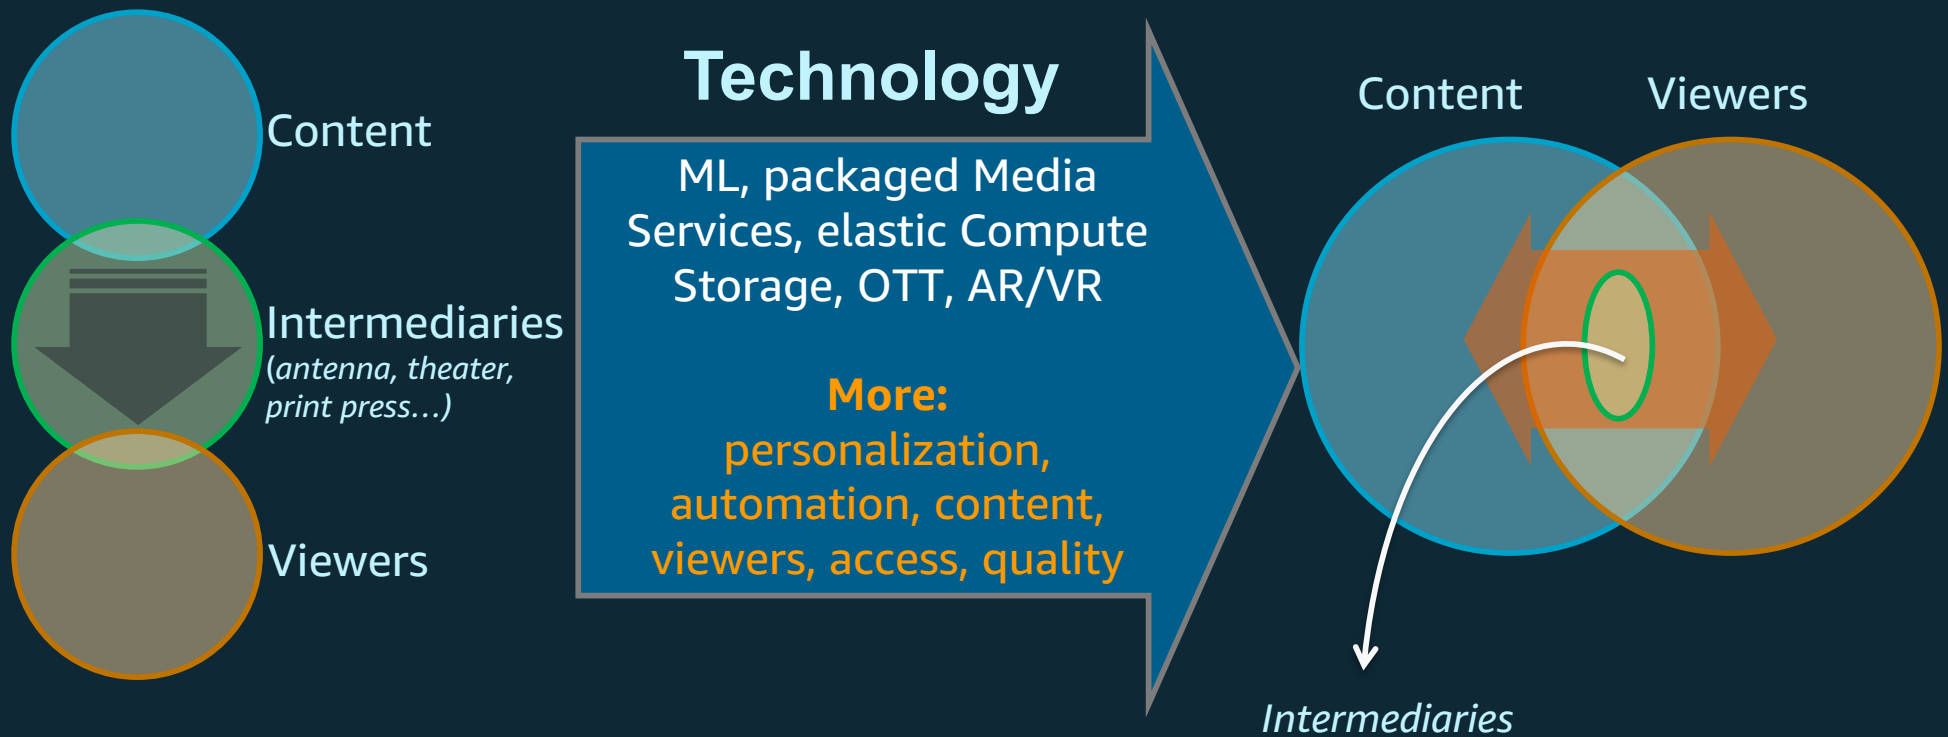

Current State of Media Business

**From creation to consumption, the
what/how/where/when/who
is making and watching content
is changing faster than ever**

The Media & Entertainment 'Singularity'

ML-aided Evolving Media Pipelines

Content Depth = Create and Curate Content (ML aided)
Anywhere, Anytime = Scale the Supply Chain (ML aided)
Personalization = Make Sense of a lot of Data (ML aided)

A quick segue: **ML toolchain within AWS**

Our vision: “Put machine learning in the hands of every developer and data scientist”

Solutions for **Every Skill Level**

Services

- Designed for Developers & Data Scientists
- Solution-oriented Prebuilt Models Available via APIs
- Image Analysis, NLU, NLP, Translation, Text-to-Speech & Speech-to-Text

Platforms

- Designed for Data Scientists to Address Common & Advanced ML Needs
- Fully Managed Platform for Model Building
- Reduces the Heavy Lifting in Model Building & Deployment

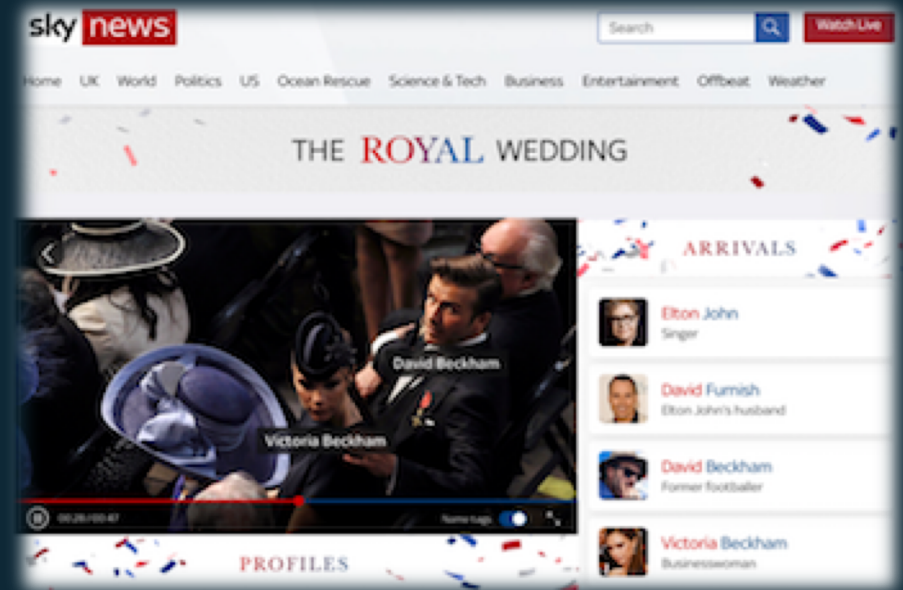

Frameworks

- Designed for Data Scientists to Address Advanced / Emerging Needs
- Provides Maximum Flexibility to develop on the leading AI Frameworks
- Enables Expert AI Systems to be Developed & Deployed

AWS ML in Use

NFL teams with AWS on statistics package driven by machine learning

Sky News and AWS Bring ML Mainstream for Live Video with Royal Wedding: Who's Who

- May 2, 2018

AWS ML in Use

C-SPAN

Over 99,000 faces indexed and searchable from over 200,000 hrs of content in

CONDÉ NAST

Condénast uses image analysis for recommending the right content based on user views

Using Amazon AI/ML Services for Media

Content Indexing / Metadata Generation

- Use services such as Amazon Rekognition & Amazon Transcribe to generate metadata about your content
- Store that metadata and making it searchable

Content Retrieval / Action Metadata

- Database tells you scene exists in a given file at a given time
- Retrieve it for timely use

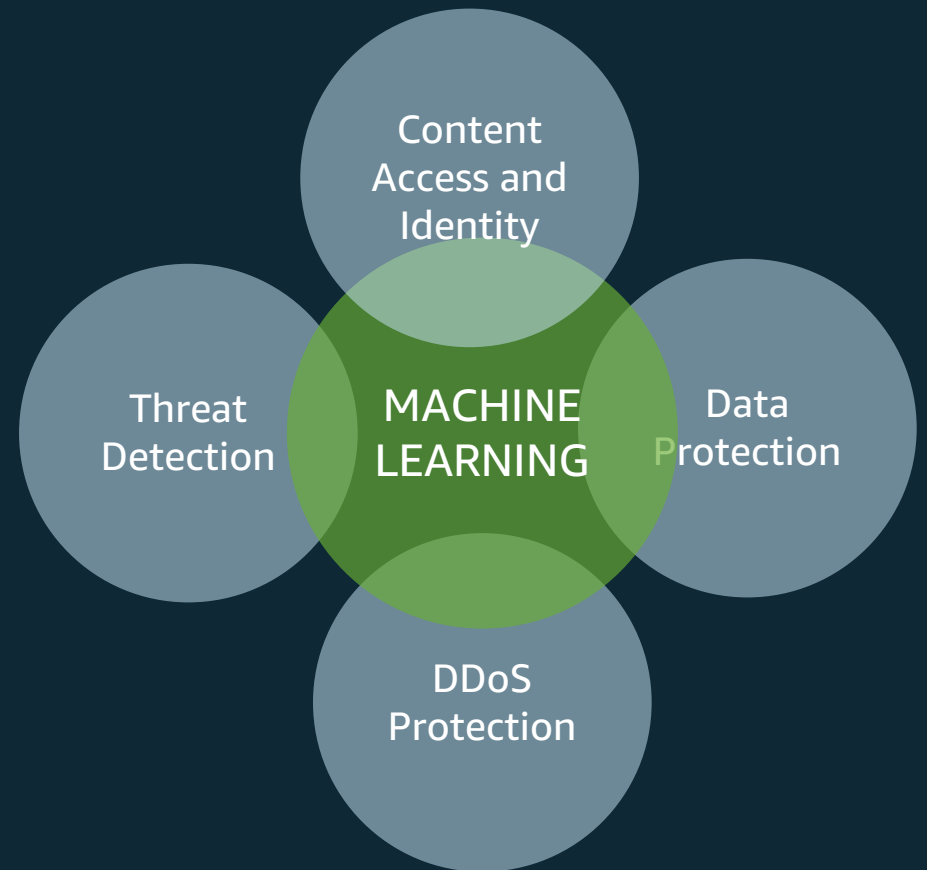

AWS Managed Security with ML Built In

AWS Shield
Advanced

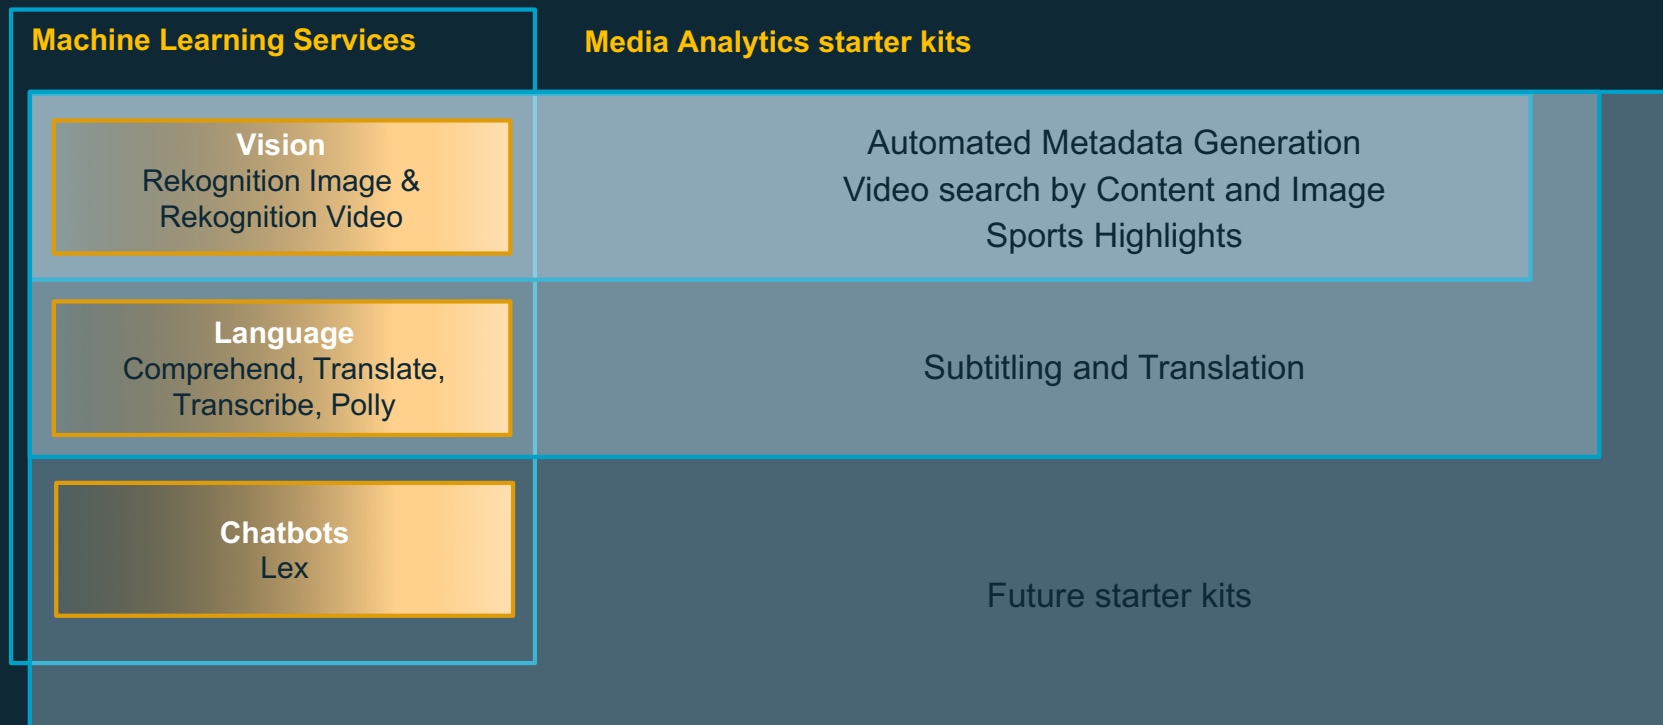

Amazon
GuardDuty

Media Analytics starter kits

Automatically provision the services necessary for building common media use cases on AWS

Training

Flexibility in ML

Every business case requires custom ML

- Dataset
- Training Model, Algorithms and variable sets
- Scale
- Use Case Requirements (consumption patterns)

Amazon SageMaker

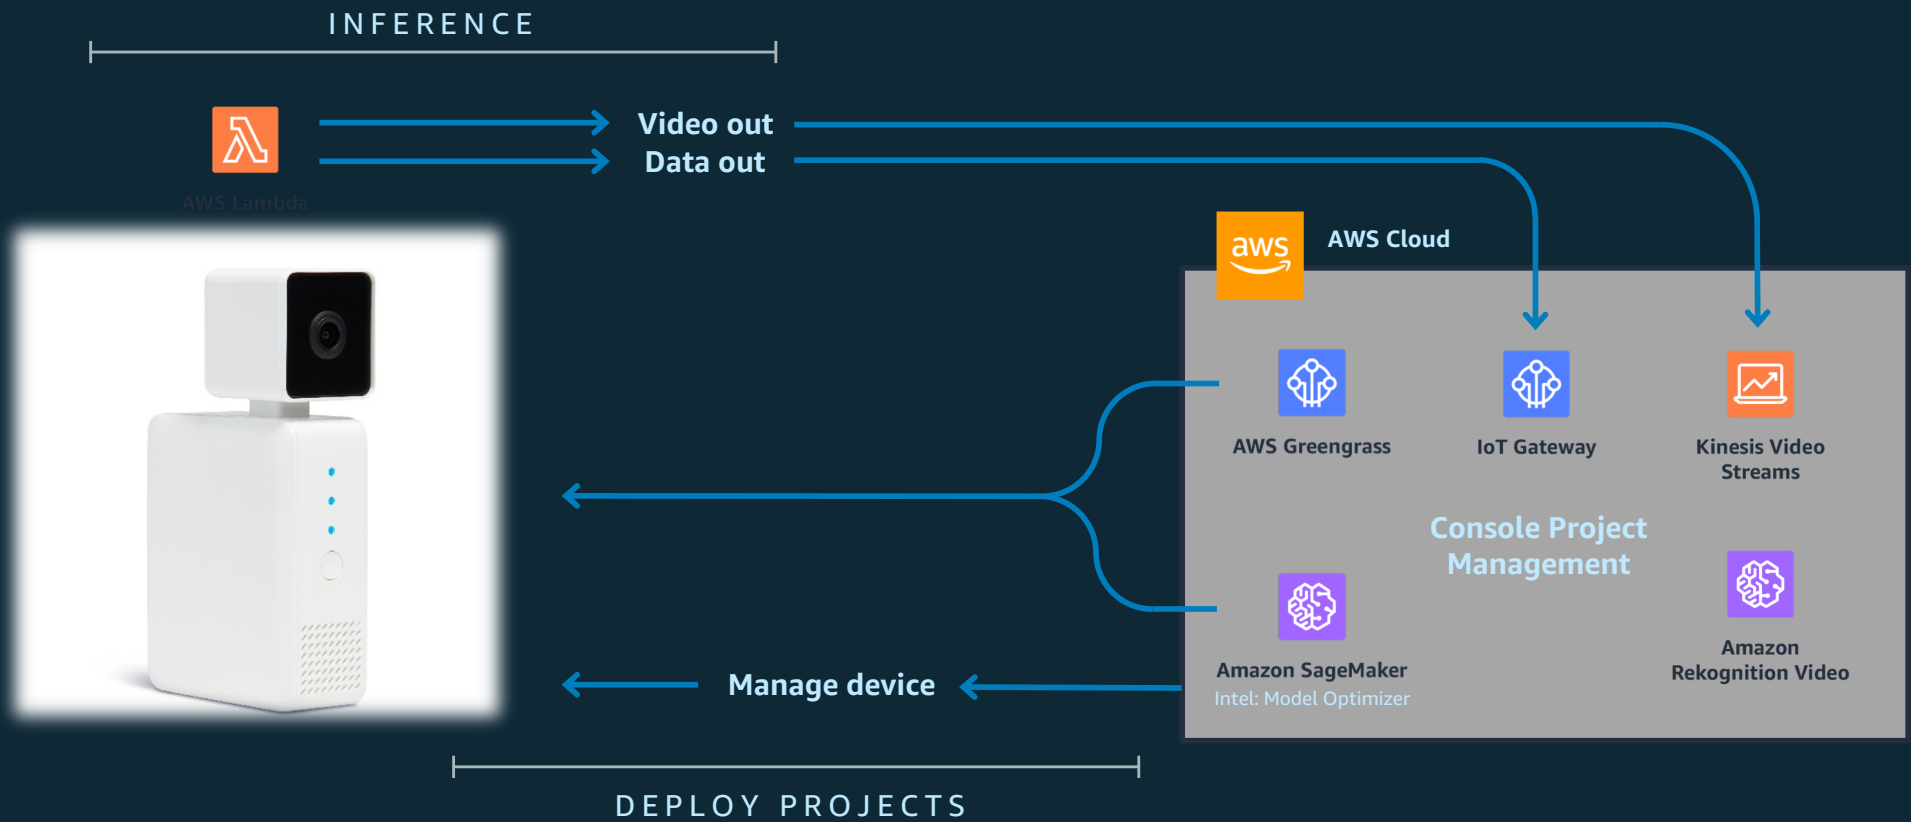

AWS DeepLens: A Deep Learning-Enabled Video Camera for Developers (June 2018)

- Fully programmable video camera
- Optimized for deep-learning on the device with Apache MXNet, Caffe, TensorFlow
- Tutorials, sample code, examples, and pre-built models
- Integrated with Amazon SageMaker for custom models

AWS Deep Lens Architecture

ML-aided Evolving Media Pipelines

Content Depth = Create and Curate Content (ML aided)
Anywhere, Anytime = Scale the Supply Chain (ML aided)
Personalization = Make Sense of a lot of Data (ML aided)

Content Depth = **Create** and **Curate** Content

This is not since nonsense written by our reserve to happen to go to
 the university of georgia . I'll tell you what, tish let's, just listen to
 this wonderful red coat , marching band , play way. We're just going to fire
 the reason that i don't know. I don't know something just right that way ,
 no one will be associate with schools playing in the room , you know,
 they need to have an unbiased opinion that can't be even even handed. I'll fire
 and for me to watch, i can fire him. I like firing people . I actually get off, okay,
 enjoy it, i'll do it, you can do it with me. All right , well, if you want it, i get
 uncomfortable in a confrontation like i don't like it, get rid of him sooner rather
 than later, so i really enjoy what it's like to get it done, okay ?

Key Phrases Quantity 2 Location 7

It is the big winner and gets first prize as the best float of the day . But
 remember, our researcher , danny is from the university of georgia and
 i think he's showing a little unfair bias . What else did he write down about
 this for? Well, i'll keep reading what he wrote, he said. This road is so much
 cooler than the float from the university of oklahoma could probably beat
 out the oklahoma in a fight . Maybe we shouldn't have fired a researcher ,
 which of the university of ways writing another marching band . Here
 comes the university of georgia red code marching band span has sold
 more records than the beatles and his hands down
 the greatest marching band of any kind and the war ok , wait , i can't
 read any of this. We all said, Oh, we had, because this really is
