Securing the Tech: TPN's App & Cloud Initiative

PRIVILEGED AND CONFIDENTIAL

Introductions

Keith Ritlop

Chair – TPN App & Cloud Subcommittee

Keith leads a team of security architects and security engineers who provide cloud technical evangelism, architectural & security guidance, application assessment, and secure cloud implementation services to media and entertainment affiliated companies around the globe. Keith specializes in cyber security & forensics, cloud architecture, distributed systems, networking, and media & entertainment workflows.

TPN – Industry Wide Initiative

- The Trusted Partner Network (TPN) is the new, global, industry-wide film and television content protection initiative
- The TPN program seeks to raise security awareness, preparedness, and capabilities within our industry
- The TPN App & Cloud assessments are a key part of this
