Demand for Content is Greater Than Ever

Deadlines are Tighter Than Ever

Content creators must scale their workflows, collaboration, teams, data management, and invest in tools to help them do so.

- **Data growth** - portability and management are table stakes
- **Collaboration** - anywhere in the world is a must
- **Team** - Need to harness the power of a global talent pool

Cloud can solve these challenges, but...

Cloud Challenges

Adoption can be slow and cumbersome for on-premises studios

- Takes time to ramp initial deployments
- Can be a manual (vs automated) process
- Deployments are complex
- IT teams need to learn new technologies

Introducing Qumulo Studio Q

A turn-key, high performance remote video editing studio in the cloud

- Studio Q combines 4 best-in-class technology products into a single remote post-production platform
- Run Adobe Premiere Pro and After Effects anywhere in the world
- Creates a low-latency virtual workstation via Teradici

Why Studio Q?

CINE **SITE**

“Qumulo has enabled us to boost Cinesite’s competitive position within the industry.”

Graham Peddie,
Chief Operating Officer
Cinesite Montreal

“Qumulo has been a huge game-changer. Now we don’t have to worry about whether our creative teams will have what they need to make tight production deadlines.

That is how much Qumulo’s cloud file data platform has improved our business and our lives.”

Jean-Paul Godmaire,
Industrial Brothers

“Qumulo is at the foundation of our AWS storage solution. Without it, we wouldn’t be able to expand to the capacity that we have.”

Jason Fotter,
Co-Founder & CTO
